In this workshop, the Publisher for Elsevier’s linguistics portfolio will host a session exploring why and how journal and research quality is measured. We will consider the origins, features and drawbacks of the Impact Factor as well as looking at the H-Index, SCImago Journal Rank and several other metrics. This will be an open and informative session, aimed at those who are interested in the numbers associated with academic publishing, how they work and how they can affect a researcher’s career.
